

# NADCA

## CHAPTER 14 MEETING NOTICE, JANUARY 12, 2010

**MEETING TOPIC:**  
**QUAKER DIE CASTING TECHNOLOGIES**  
**PRESENTED BY:**

**PETER SKOOG, QUAKER CHEMICAL CORPORATION**

**About the Presentation:**

Peter Skoog will be presenting on Quaker Chemical's fluid options for modern die casting equipment including their latest Fire-Resistant Hydraulic Fluid Technology. They will provide information on the Anhydrous Fire Resistant Fluids as potential replacements for Water Glycol Fluids in your Die Cast Operations.

**About the Speaker:**

Peter Skoog is currently the Technical Manager for Fluid Power Products with Quaker Chemical. He has been involved with fire resistant fluids for over 32 years as a formulating chemist, product manager, and technical manager. Much of his laboratory time was spent developing water glycol and polyol ester fluids. He also has considerable experience in the development of vegetable oil based fluids. The author has worked closely with the die casting, steel, automotive foundry industries over the course of his career. Peter is a 1978 graduate of Virginia Tech where he earned a B.S. in chemistry.

Agenda:

6:00pm - Attitude Adjustment (Cash Bar)
