NADCA Chapter Rebate Credits - 2013

In 2009, the NADCA Board approved the implementation of a Chapter rebate credit system which enabled qualifying Chapters to get a credit of $10/individual Chapter member as of October 1st. The credits could be used for any NADCA educational course. Credits were good for a 24 month period.

The NADCA Membership committee met in February, 2013 and reviewed the success of the Chapter rebate credit program. The committee agreed that a credit should continue to be issued and that the use of the credit should be expanded to include more NADCA products and services.

NADCA National was asked to develop this document to help the Chapters understand and more fully use the rebate credit.

A list of the products and services for rebate credit use is as follows:

- Credit towards a Chapter course.
- Credits can be assigned to individuals from the Chapter to use on any NADCA education course.
- Credits can be used (up to $100/person) on any NADCA run conference (Government Affairs, Executive, Plant Management, and/or Marketing).
- Credits can be used on NADCA publications.
- Credits can be used on registration to the NADCA congress (up to $100/person).
- Credits can be used by the Chapter for any idea that they believe has merit, provided they get approval from NADCA’s President.

For a Chapter to qualify for the rebate credit, they must be a Chapter in good standing. The following lists the criteria to be considered ‘in good standing’:

1. Conduct at least three Chapter meetings in a Chapter season (September to August).
2. Have a duly elected Chapter Board and report the election results to NADCA within 30 days of installation.
3. Have a set of Chapter bylaws that conform to NADCA’s Bylaws.
4. Maintain themselves as a separate entity and have filed their annual report (or equivalent) with the state they are incorporated in.
5. Prove compliance with the Internal Revenue Service.
